

### MEMO

The claims are not correct. Although the Appeal Brief states, "No amendments were filed after the final office action", this is not true. An amendment after final was submitted 09/08/2008, and applicants were informed in the Advisory Action of 09/15/2008 that the amendment was entered. As a result, some or all of the amendments that were tendered in the 09/08/2008 paper e.g. to claims 20 and 27 do not appear in the Claims Appendix version.

In addition, the second Appeal Brief introduces changes that were never made. For example, in the actual claim 13 (and correctly in the first Brief) line 4 has Z1, Z2 etc --- numbers are not subscripted. But in the second Brief, these are now suddenly subscripted as Z<sub>1</sub>, Z<sub>2</sub> etc. Applicants must check for all changes from the actual claims.

Further, as was stated previously, this must be a clean copy, not a marked up copy. Some markings were removed. But other markings are still present, e.g. page 10, line before the line with (a) in it. In addition, the second Brief has makings in it, e.g. page 12, line 2, that are not in the first Brief. Page 25, line 7 is another example of this --- the word "where" is underscored, even though it appears without this underscore in the first Brief.
